Dr. Hadden,

The documentation required for a medical leave of absence is summarized below:

You need a note/letter from your treating physician stating the diagnosis and/or procedure that explains the need for the medical leave. Your treating physician must include the dates that you will be absent from work (start date plus anticipated return to work date)

If you already have a letter from your treating physician, you can scan it and email it to me to initiate the process. Or, you can also send it to me via Secure Fax: 212-851-7025 (but please send me an email when you've faxed it.) Lastly, you can mail it to my attention (my contact information is below).

Best regards,
Wendy

Dear Wendy,

I apologize for not responding sooner. I had spoken with Dr. D'Alton approximately two weeks ago and again today. Unfortunately I am requesting an extension of my medical leave of absence until December 1st, 2012. I have attached an updated letter of documentation from my therapist.

I appreciate your concern & support. Let me know if you need any further information. Again, I truly am grateful for the continued support of my Department and the University.

Sincerely,

Dr. Hadden

Dear Fiona,

Please find attached the most recent letters of support for my continued medical leave of absence from my therapist & psychopharmacologist. I also spoke to the representative of MetLife, Columbia's long term disability provider & my disability has been approved & I should be receiving my first benefit check at the end of the month.

Therefore do I need to do anything regarding Cobra. My application to The Standard for a waiver of my life insurance premium is still pending so I want to be sure I don't miss any payment that could jeopardize my policy.

Would you be so kind as to let me know what(& when) I need to do anything in regard to these issues as soon as possible. Any help you can provide would be very much appreciated.

Sincerely,

Dr. Hadden
